

Utilizzare i blocchi per determinare le quantità totali.

Es)

4 centinaia = 40 decine = 400 decine

1)

_____ centinaia = _____ decine = _____ decine

2)

_____ centinaia = _____ decine = _____ decine

3)

_____ centinaia = _____ decine = _____ decine

4)

_____ centinaia = _____ decine = _____ decine

5)

_____ centinaia = _____ decine = _____ decine

6)

_____ centinaia = _____ decine = _____ decine

7)

_____ centinaia = _____ decine = _____ decine

8)

_____ centinaia = _____ decine = _____ decine

RisposteEs. 4 40 400

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

Utilizzare i blocchi per determinare le quantità totali.

Es)

4 centinaia = 40 decine = 400 decine

1)

2 centinaia = 20 decine = 200 decine

2)

8 centinaia = 80 decine = 800 decine

3)

3 centinaia = 30 decine = 300 decine

4)

5 centinaia = 50 decine = 500 decine

5)

9 centinaia = 90 decine = 900 decine

6)

6 centinaia = 60 decine = 600 decine

7)

7 centinaia = 70 decine = 700 decine

8)

1 centinaia = 10 decine = 100 decine**Risposte**Es. 4 40 4001. 2 20 2002. 8 80 8003. 3 30 3004. 5 50 5005. 9 90 9006. 6 60 6007. 7 70 7008. 1 10 100
